Miller Place, N.Y. 11764

All dogs are sold in good health to the best of my knowledge and are sold with their first vaccinations. However, all dogs are still required to be vet checked by the buyer within 7 days from the date of purchase and are guaranteed within this period for any fatal genetic defects. A cash refund will not be issued for a dog with a fatal genetic defect, however, the dog will be replaced with a dog of equal value provided that the buyer submits proof of the fatal genetic defect by a licensed veterinarian. The guarantee will expire if the dog is not examined by a licensed veterinarian within 7 days from the date of purchase.

All dogs sold are guaranteed against hip displasia for a period of 24 months. The buyer must have the dog examined by a licensed veterinarian for hip displasia within the guaranteed period of 24 months in order for the guarantee to be honored. If the dog is diagnosed with hip displasia a cash refund will not be issued, however, the dog will be replaced with a dog of equal value. All costs for medical examinations for the dog is at the expense of the buyer.
